

Next Gen Illumination

Proven Performance.
Patented Technology.
Increased Profit.

- High Lumen Output for Layer and Brood
- Commercial Grade High Performance LEDs
- Dimmable Layer Light
- Non-Dimming Brood Light
- 3 Year Warranty
- ASABE Compliant
- Engineered Spectral Output @ 80Ra CRI
- 40,000 Hour Life Expectancy
- 110V and 220V versions Available
- Eliminate Disposal Costs
- Recyclable Product*

PRODUCT	DIMMABILITY	WATTAGE	VOLTAGE	OUTPUT	OPTICS	COLOR	LIFE
AG-LA19-6-40K	YES	6 Watts	100-130 VAC	410 lumens	160°	4000K	7-9 YEARS
AG-LA19-8-40K		8 Watts		550 lumens			
AG-BA19-6-40K	NO	6 Watts	Or 200-230 VAC	410 lumens			
AG-BA19-8-40K		8 Watts		550 lumens

Next Gen Illumination

Proven Performance.

Patented Technology.

Increased Profit.

Technology:

LA19 and BA19 lamps have been engineered to meet the American Society of Agricultural and Biological Science (ASABE) standards for broiler house operations.

Installation:

Typical lighting density levels are a maximum of 10' from wall and 20' spacing between feeder lights. Brood lighting density levels add additional fixtures in brooding areas to achieve 10' spacing between fixtures. Mounting heights are based on 10' A.F.F. Taller ceilings may require additional fixtures to achieve required light levels.

The standard lamp replacement uses standard light sockets for operation. The LA19 and BA19 are designed for typical broiler house operations.

Precautions:

LA19 and BA19 lamps are not water proof and should not be exposed directly to water. Non-Dimmable lamps should not be used in dimming circuits. Use in this manner voids any and all warranties and can damage the lamp and its components.

Warranty:

Next Gen Illumination provides a conditional warranty which covers a 3 year period from date of purchase. For claims and returns, please contact your supplier for any covered replacement within the warranty period. Warranties do not cover items which have been misused, modified or disassembled.

*Recycling:

Next Gen Illumination will recycle all lamps manufactured. For information on our recycling program, visit www.poultryled.com, for the most up to date information.
